## AmbrowCart™

eCommerce is a growing business and if you want to start building your own eCommerce empire, you need an eCommerce system that's easy for you and your customers to use. Our eCommerce system is powered by AmbrowCart™ which can easily be tailored to your individual needs. The packages we offer provide you with a complete online shop and come with many features as standard.

We try to keep the whole system as straight forward and simple to use as possible, for both you and your customers. From the point of view of your customers, the more effortless we make it for them to make a purchase; the more likely they are to buy from you! The back end is user friendly too, enabling you to quickly update your product details such as images and prices.

## The Features You Need...

Designed to help you get your online shop up and running in no time, our eCommerce system comes with a standard interface and layout, and the following features as standard:

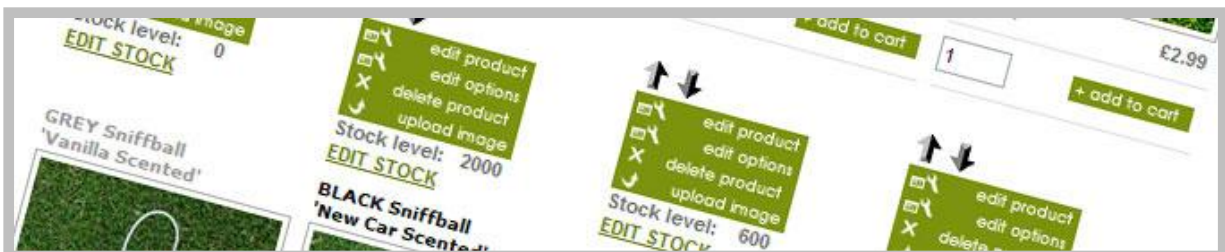

- Unlimited number of products, categories and sub categories
- Unlimited product options and price variants per item
- Fully functional catalogue system set up ready to use
- Secure server facilities for direct payment transactions
- Easily hooks up with the major on-line credit card providers such as Protix, Worldpay and PayPal
- Image uploading mechanism for your ease of use
- Full on-line control of your own catalogue
- Shop search facility
- Shop layout controls and custom text settings
- Free upgrades included under the rental agreement
- **FOR ONLY £450\* per year**

## ...And The Features You Want

The system is fully customisable and there are many additional features that we can combine to give you a more bespoke ecommerce system, and your customers a more advanced shopping experience.

- Custom displays and layouts - anything you want!
- Related Products
- Integration with our Ai eShots account (ensure your customers sign up to your newsletter mailing list)
- Stock Level Control
- Currency Converter, which is updated daily
- Discount functionality
- Special offer codes and discount functions
- Overseas delivery controls
- Advanced delivery scripts/options
- Customised Buttons
- Advanced search facility
- Customer account facility, enabling customers to login
- Google Products data feeds
- And much more....

## Optimum Performance

For optimum performance we choose to only sell our **ecommerce system** for use on our own hosting, so one of our hosting accounts is required with every ecommerce system, usually a Business Lite Account is sufficient. For more details please see our **hosting account packages**.

## Still Have Questions?

If there's anything else you would particularly need that isn't mentioned, just ask – we realise every business is different and can easily adapt the ecommerce system to suit your individual needs. Call our Milton Keynes office on **01908 612 500** or email [creative@amasci.co.uk](mailto:creative@amasci.co.uk). To find out about the other services we offer to help you build your business, visit us at [www.amasci.co.uk](http://www.amasci.co.uk)
